Dear Valued Customer,

Here with we confirm that the Unplasticized Polyvinyl Chloride (PVC-U) fittings and valves Effast for piping systems for water supply manufactured by Polypipe Italia are certified by Kiwa Italia S.p.A. and are in conformity with the indicated standard and the requirements. We confirm you that all the goods are comply with standards; the items are in compliance to:

EN 1452:2009 (all parts) "Plastic piping systems for water supply."

If not otherwise stated on Technical brochures nominal pressure of Effast fittings is as follows:

- solvent welding fittings from d 12 up to d 225 PN 16, from d 250 up to d 315 PN 10
- adaptor fittings from d 16 up to d 110 PN 16
- threaded fittings from R 3/8" up to R 4" PN 16.

Some fittings in the 200/225 range are indicated as PN16 with reduced safety factor compared to the ISO references.

As required by the UNI EN ISO 1452-3:2010, EN BS 1452-3:2010 and ISO 9001:2015 all batches of POLYPIPE ITALIA s.r.l. are controlled by the Quality System and are subjected to physical testing required.

In accordance to above Quality System, for marked fittings, we obtained certification from UNI, Kitemark, Kiwa, DVGW, NF, Bureau Veritas, CE Marking, NSF and Wras.

Regards

Quality Manager
Roberto Dagnino
